 **HONDA**

THE BEST PWC ON THE WATER

When it comes

to picking a personal watercraft, there's really only one choice: Honda. Your new Honda AquaTrax® has plenty of what has always set Hondas apart: superior engineering, designed specifically to help you enjoy your day off with no hassles. From our purpose-built, turbocharged marine engines to an all-new hull design this year for even better handling and splash protection, your new AquaTrax gives you something only a Honda can provide: seamless, dependable, perfectly enjoyable Honda performance, all wrapped up in a brand-new package for 2008. And the farther away you venture from shore, the more you'll come to appreciate Honda's legendary dependability—something only an AquaTrax can offer. So come on in—the water's fine. In fact, it's never better than when you're enjoying it on a Honda AquaTrax!

A DAY ON THE WATER, the sun streaming down on you. A sandy white beach. Not a cloud in the sky, and not a boss in sight. For most people, this would be the vacation of a lifetime. But for you, it's just another weekend. What better way to enjoy life on the water than with the world's best personal watercraft? Hey, life's too short to settle for anything less.

 **HONDA**

AQUATRAX F-15X GPScope Get ready to experience the most luxurious, most enjoyable PWC on the water, the all-new 2008 Honda AquaTrax F-15X GPScope.® In addition to all the other great features we've equipped our new watercraft with this year (you'll read about those in a minute), you get Honda's exclusive GPScope navigation system. Incorporated right into the instrument panel, there's room for up to 100 waypoints. There's also a digital-compass function, along with plenty of other features. It's never been easier to get to your favorite secluded cove or beach!

AQUATRAX F-15X There's some great news this year for anyone who enjoys all-new hull design. It's longer this year, so you get more room, and the raised bond-line on the water: Honda's new AquaTrax F-15X and F-15X GPScape. They give you line design gives you more splash protection. The new hull is made of light, strong everything Honda watercraft are famous for—just more of it. Featuring bigger, all-new fiber-reinforced plastic with a sealed liner-type inner hull that makes it more rigid than 1470cc four-cylinder engines with double overhead cams and liquid-cooled turbo- conventional designs. The shape is a real breakthrough, perfect for both buoy-course chargingers for a power delivery you have to experience to appreciate. Then there's the carving and leisurely cruising. And it's a great choice for towing a wakeboarder too.

AQUATRAX F-15X

DESIGN THAT PERFORMS Everywhere you look, your new AquaTrax is full of features that set it apart. Both models offer plenty of storage (over 21 gallons up front, a 1.7-gallon compartment in the cockpit and another 1.5-gallon compartment under the seat). Have a beginning rider out with you? Just activate the limit mode on the multi-function display and they can still have fun, but more responsibly. The keyless electronic ignition features 9999 different combinations—no keys to lose, and you can pick a number that’s easy to remember. Off-throttle steering, anti-corrosion treatments, a great warranty—it just doesn’t get any better than an AquaTrax!

JET PUMP An axial-flow 155mm Solas® jet pump uses a three-blade impeller design that’s proprietary to Honda. You get less cavitation, less noise and longer pump life.

HULL DESIGN The hull and deck are permanently joined and sealed at the gunwale, and the raised bond-line design aids in docking and provides excellent splash protection.

ENGINE LOCATION Our engines’ dry-sump design lets us mount them lower in the hull, keeping center of gravity low for superior maneuverability and response.

ENVIRONMENTAL COMMITMENT

At Honda, we believe in performance and leadership. That's why we're taking a leadership position when it comes to the environment, in our products and in all other aspects of our business as well. For more information visit powersports.honda.com/the_story/environment.

PROGRAMS THAT PERFORM

There's more to your new Honda AquaTrax than all its great features. Just log on to powersports.honda.com/programs and you'll discover all the great programs available to you, including things like the Honda Rider's Club of America,[®] financing, rider training and extended warranty coverage.

BE A RESPONSIBLE RIDER

At Honda, we're strong proponents of rider safety. Consequently, we encourage you to ride your new Honda AquaTrax responsibly. And keep a few other things in mind as well.

All Honda AquaTrax models are recommended only for operators 16 years of age and older. Always wear a U.S. Coast Guard-approved personal flotation device, neoprene wetsuit bottom, eyewear and other appropriate safety apparel. Read your owner's manual thoroughly, always ride with a safety lanyard attached to your person, and always ride at a safe speed and at a safe distance from other vessels.

Since personal watercraft are inboard boats, their use is subject to all applicable local, state and federal boating laws and regulations. And remember, riding doesn't mix with alcohol or drugs.

Whenever you ride, please respect the rights of shoreline residents and other marine recreationalists. And we should all work to preserve our future riding opportunities by showing respect for the environment and the rights of everyone on the water.

At Honda, we believe all riders should take a safety course. Visit the U.S. Coast Guard at uscgboating.org to locate a boating-safety course near you.

Specifications, programs and availability subject to change without notice. See your Honda Dealer for details on all programs. All specifications in this brochure—including colors, warranty terms, HRCA, etc.—apply only to models sold and registered in the United States.
